We deliver custom iOS mobile apps for a complete range of iOS devices, including iPad and iPhone mobile app development.

Highlighting our track record of success, our team has provided iOS mobile app development services to some of the world's leading brands and successfully built top-ranking and featured iOS apps.

# Android App Development Services:

We provide end-to-end Android Mobile Application Development Services to transform ideas into a successful mobile application that performs flawlessly in the entire Android ecosystem. Our Android mobile app development services covers connected devices, wearables, smart TVs and in-car infotainment systems.

Our team of top Android mobile app developers leverages extensive domain experience and technical expertise to deliver robust Android mobile apps. We assist in the entire Android development lifecycle from initial ideation, development to submission to Google Play.

# Windows Application Development Services:

We provide Windows application development services with extensive experience in creating apps for all devices using the latest version of Windows. Our team provides windows app development services ranging from consulting, idea development, designing, development, launch, upgrade to integration.

Our team of Windows application developers provide a variety of custom Windows applications as per your organization's requirements and specifications. We provide insights, identify challenges and goals, and gather needs and requirements.

# Cross Platform Application Development Services:

Our team provides cross platform application development for a wide range of mobile devices and operating systems such as Apple's iOS, Android and Windows. Our experience includes building mobile apps using Configure.IT, Xamarin, PhoneGap, Ionic and more.

We expertise in cross platform mobile app development services to engage potential users and target audience.

# Progressive Web Apps (PWA):

Techunique creates secure and fast loading web pages to ensure seamless performance, identical to native mobile application. With extensive experience in mobile application development services, Techunique creates web apps that integrate unique features such as offline browsing, push notification and data analysis into web apps.

We use an approach combining tools and cutting-edge technologies to create perfect user experiences on mobile devices using service workers, modern browser APIs, and an application shell architecture.

# Kotlin Application Development:

Techuniqu team provides custom Android Mobile app development services with Kotlin, a programming language which works on JVM to develop intuitive and user-friendly applications. Our Kotlin mobile application development services aim to craft a seamless user experience across Android ecosystem to address a wide array of business challenges.

With Kotlin mobile app development, we build Android apps using industry best coding practices and provide end-to-end services right from development, testing to code review.

# Augmented Reality and Virtual Reality App Development:

We craft unique and captivating experiences through AR and VR applications that add value to the client's business. We redefine the way users interact with your app by utilizing the power of Augmented and Virtual Reality. Techunique professionals help you bring your augmented and virtual app idea to life by incorporating the latest frameworks of Apple and Google such as ARKit and ARCore respectively. Our AR and VR apps feature the next generation functionality to interact with the real world in more innovative and realistic ways.

Techunique has expertise in delivering outstanding AR and VR apps for clients belonging to multiple industry verticals. Our in-house team of UI/UX designers, app developers, digital producers and 3D artists work collaboratively to build the next-gen applications.

# Strategic Partnership:

Provide technical expertise and differentiation at all levels of digital transformation.

Our business objectives and adaptability help our clients harness the power of technology to transform their business. If you share our drive to continuously exceed expectations, achieve technological excellence, and be able to deliver globally, let's partner.

# Strategic Partnership Model:

Partnership at Techunique is nurtured by mutual trust, shared risks and profits, and ambitious goals.

Increase revenue, create brand and expand your reach with us.

We understand that building strategic and sustainable solution is a joint vision and we like to involve businesses of all sizes. We have alliances with some of the internationally acclaimed businesses to ensure that our partners can mutually thrive.

# Activity Alliances

We have associated with industry-leading partners to gain strategic business & technology support.

## How you'll Benefit from Strategic Partnership with Techunique?

- ❖ Get introduced to new business markets and get higher ROI by expanding your business's network.
- ❖ Entry into new markets that will help deliver in specific geographic areas.
- ❖ Access emerging technologies to seize future potential, as well as industry partnership in niche-market.

# **ABOUT OUR PARTNERSHIPS**
